

2020 CAMPUS CLIMATE SURVEY

College of Engineering and Computer Science

Student Survey Results

January 2021

Operational Excellence and Assessment Support

UNIVERSITY OF CENTRAL FLORIDA

The mission of Operational Excellence and Assessment Support (OEAS) is to support efforts to improve the quality of student learning outcomes and the effectiveness and efficiency of University operations through assessment and analytics. OEAS will accomplish this by providing support to all academic programs and administrative units through integrated processes that include continuous quality improvement, analytical and survey studies, technology integration and guidance in assessment.

Introduction

The Interim Chief Equity, Inclusion and Diversity Officer contracted with Viewfinder® Campus Climate Surveys, LLC to conduct three (faculty and administrators, staff members, and students) Campus Climate Surveys in spring 2020 to inform strategic planning. Operational Excellence and Assessment Support (OEAS) was contacted by Dr. S. Kent Butler, Interim Chief Equity, Inclusion and Diversity Officer, in May 2020 to assist with the analysis and summary of the findings gleaned from the Campus Climate Surveys.

This report summarizes select items from the student survey for the 246 individuals who indicated on the survey their current field of study was in the College of Engineering and Computer Science. The items provided in this report include those that were summarized in the executive summary from the *2020 Climate Survey: Key Findings from the Student Survey Report*.

Contents of this Report

- Survey Administration and Respondent Characteristics
- Overall Learning Experience at UCF (Tables 1 - 25)
- Reasons for Attending UCF (Tables 26 - 40)
- Student Outreach at UCF (Tables 41 - 49)
- How Welcoming UCF is to Different Groups of People (Tables 50 - 64)
- Level of Interactions Among Racial/Ethnic Groups (Tables 65 - 70)
- Campus Diversity Training (Tables 71 - 76)
- Personal Experiences of Discrimination/Bias/Harassment (Tables 77 - 83)
- Sexual or Relationship Violence (Tables 84 - 96)
- Safety on Campus and in the Surrounding Community (Tables 97 - 103)
- Campus Police (Tables 104 - 106)
- Religion/Non-Religion/Spiritual Affiliation (Tables 107 - 112)
- Political and Worldviews (Tables 113 - 118)

Survey Administration and Respondent Characteristics

Campus Climate Surveys, LLC administered three Viewfinder® Campus Climate Survey instruments to faculty and administrators, staff members, and students in spring 2020. Of the 64,928 UCF students invited to participate, 1,207 responded to the survey (response rate: 1.9%). Most respondents (76%) indicated they were pursuing a bachelor's degree while 13% were pursuing a master's degree 10% pursuing a doctoral degree. Of those pursuing an undergraduate degree, 34% indicated they were in their first or second year and 67% indicated they were in their third year or beyond. Over half of respondents were female (62%) and about 30% self-identified as students of color. Over one third of respondents (36%) reported they were employed more than 20 hours per week while enrolled in school.

There were 246 CECS students who responded to the survey. The characteristics and demographics of the CECS students who responded to the survey items are summarized below:

- **Gender:** Of the respondents who provided this information, 63 (35%) were female, and 115 (65%) were males. There were 68 respondents who did not provide their gender.
- **Number of Hours Employed:** Of the respondents who provided this information, 83 (44%) indicated they were not employed, 57 (30%) indicated they were employed 1-20 hours per week, and 47 (25%) indicated they were employed more than 20 hours per week while enrolled in school.
- **Level and Classification:** Of the respondents who provided this information, 77 (32%) identified as undergraduates in their first or second year, 118 (48%) identified as undergraduates in their third year or beyond, and 49 (20%) identified as graduate students (Master's or Doctoral). There were 2 respondents who did not provide their degree level or classification.
- **Student of Color:** Of the respondents who provided this information, 71 (31%) self-identified as a student of color, 157 (69%) did not. There were 18 respondents who did not provide this information.

This report compares responses for CECS students with all other UCF college student respondents. It is also disaggregated by gender, number of hours employed per week, student degree level and classification, and identification as a student of color. Please note, however, that caution must be exercised when drawing inferences as the response rate for the student survey is quite low. It is not representative to generalize to the overall CECS student population. Furthermore, although 1,207 UCF students started the survey a substantial number did not complete the entire instrument and many survey items will have a lower respondent count.

Overall Learning Experience at UCF

Table 1. I am satisfied with the quality of the education I am receiving

	No. of Respondents	Strongly agree	Agree	I don't know	Disagree	Strongly disagree	N/A
